

Slingva

Slingva

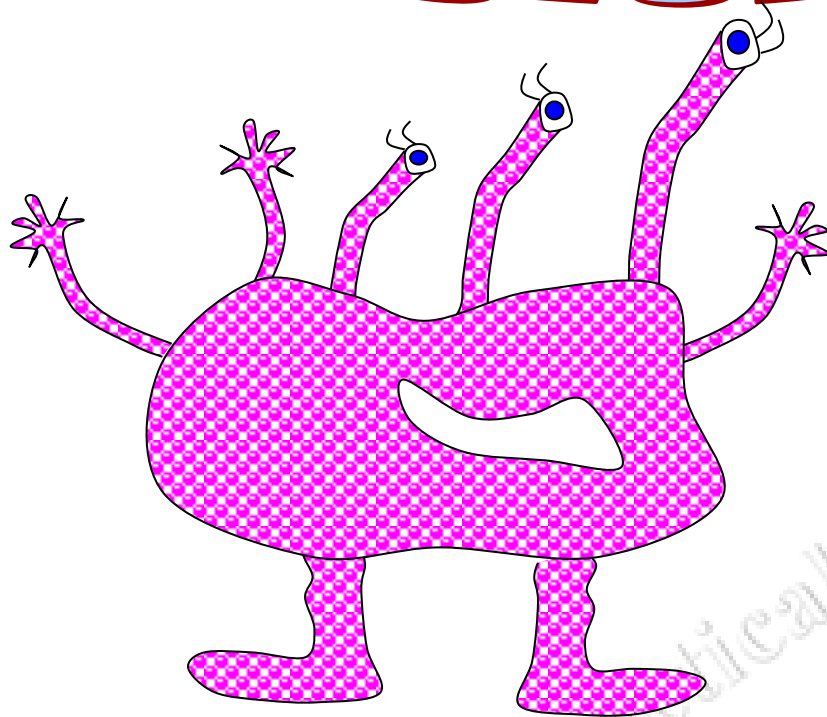

Hi. My name is Slingva and I live on an Asteroid called Asterorld. I have 3 legs with a big foot at the end and a single toe.

I can see very well, as I have 4 blue eyes, which are on long stalks so I can see round corners. I'm not very good at doing things though, as I've only got 2 arms with a small hand at each end, with 5 fingers at the end – just like you!

I have a little sister, Slingvon, but she is typical of a girl and has spots rather than stripes! All my family are a reddish colour, but we get darker as we get older – you should see my grandpa, he's almost black! A bit like looking at a very wrinkly person on your planet.

I am good looking, as I have a beautiful roundish body and a big smiley mouth that is about 6cm long. In fact our whole family likes sweet things, and we make them too. We are bakers.

Slingvon

Slingvon

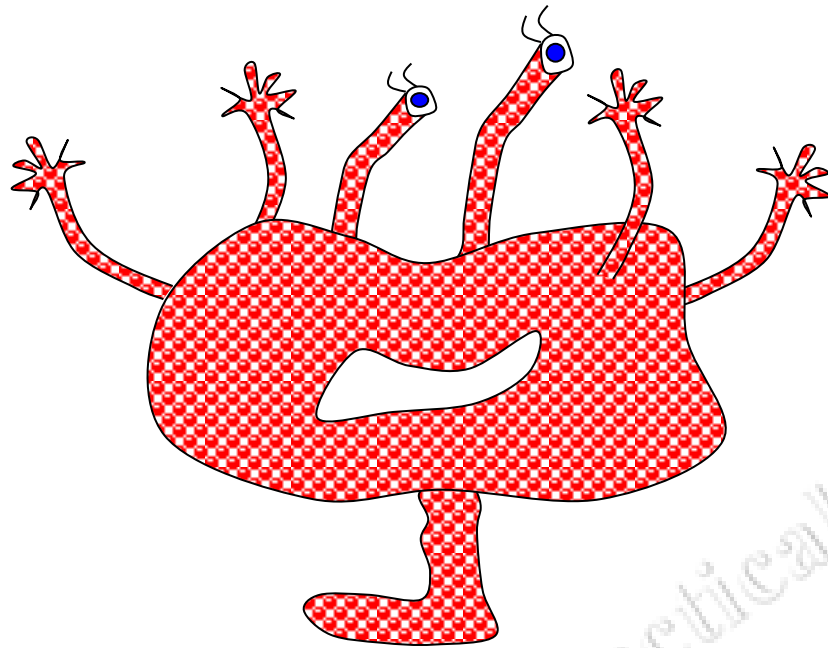

Hi. My name is Slingvon and I live on an Asteroid. I have 2 legs with a big foot at the end and a single toe. I've got more rounded feet and smaller ones than my big brother. I have 3 blue eyes, which are on long stalks so I can see round corners and they look in different directions at once.

I've only 3 arms with a hand at each end, but I have got 5 fingers like you! I can at least do more than my brother, Slingva.

My big brother Slingva, looks a lot like me, as we both have roundish bodies and big mouths, (a 6cm diameter one anyway). He's darker than me and has stripes instead, (as he is a boy) but we are very similar.

I don't have any wings, so I can't fly, but I'm afraid of heights so it doesn't bother me.

Slingtum

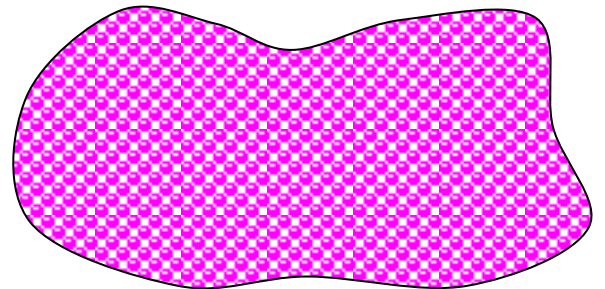

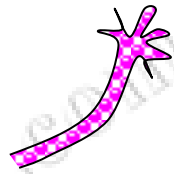

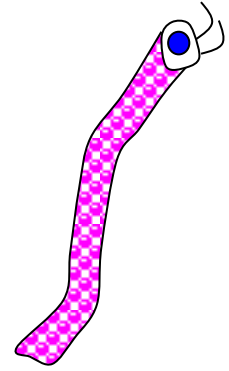

Slingtum

I'm Slingtum, and I get my name because I have a large tummy! I like eating lots. This is helped by having 4 long arms to reach all the food and a good pair of eyes to be able to see it all in the first place. I also have a big mouth of nearly 6cm long! I'm quite old, although not as old as Slingva, who is very dark red. I hop very well, as I have only 1 leg.

I haven't got many hobbies, although I do enjoy cooking things like fish and chips from your planet, and from mine I like pernapsy and hompies with trandeer on the side – delicious!

As I am a girl, I have spots, which I don't like, as on your planet it looks like I've a got a big rash – very nasty!
